

# 10 Science A-Z Resources You Should Be Using

## 1. Distance Learning Packs

Distance Learning Packs include select Science A-Z videos, digital activities, reading resources, and hands-on activities that make it easy to continue learning anywhere.

Located under the Resources tab > Activities > Distance Learning Packs

## 2. Unit Roadmaps

Three suggested sequences that provide pathways for strategically incorporating resources from each unit into science instruction.

Located under Overview Resources on each unit page

## 3. Interactive Science Lessons

Engaging, interactive lessons that put students in the driver's seat as they learn the fundamental concepts of science.

Located under the Resources tab > Activities > Interactive Science Lessons

## 4. Process Activities

Hands-on experiments and activities that allow students to apply important unit concepts and develop science practices.

Located under the Resources tab > Activities > Process Activities

## 5. FOCUS Books

High-interest books with STEM challenges and assessments that help students focus more closely on individual concepts presented in a Science A-Z unit.

Located under the Resources tab > Science & Literacy > FOCUS Books

## 6. Storylines

Coherent series of lessons designed to engage students in three-dimensional learning, providing a full year's curriculum to address all 21 NGSS\* topics from grades K–5.

Located under the Resources tab > Activities > Storylines

## 7. Project-Based Learning Packs

Collaborative activities that encourage students to use creativity and critical thinking to investigate a driving question and complete a challenge.

Located under the Resources tab > Activities > Project-Based Learning Packs

## 8. Science Videos

Instructional videos, including the original SAZ Adventures series, which take students on virtual field trips, demonstrating science and engineering practices in the real world.

Located under the Resources tab > Activities > Science Videos

## 9. Investigation Packs

Close reading activities that help students apply science practices and develop the 21st century skills of critical thinking, collaboration, and communication.

Located under the Resources tab > Science & Literacy > Investigation Packs

## 10. Quick Reads

Single-page resources that address specific science topics and allow students to dig deeper into core science ideas and crosscutting concepts.

Located under the Resources tab > Science & Literacy > Quick Reads
